IV Webex

Introduction

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Webex

A unified collaboration experience offered as part of our Intelligent Voice service, Webex enhances three of the most common workplace communication scenarios - calling, messaging and meetings – all in a single app.

Webex provides the same experience on phones, PC, tablets and smartphones to let you call, message, and meet while mobile or working from home. Move calls seamlessly while you're in transition, easily find colleagues & documents anywhere

Calling

Fully integrated with Intelligent Voice, Webex offers PBX features on your mobile, PC or tablet

Collaboration

Exchange real-time messages with teams, partners and customers. Share and collaborate on documents for all workflows

Meetings

Invite colleagues & guests to ad-hoc or scheduled meetings with HD video, voice, messaging, screen sharing and calendar integration

IV Webex

Cloud Calling – All the calling features you need on desktop or mobile

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Single Number Reach

Shared Call Appearance means you can publish one IV phone number and all IV calls go to the device of your choice – desktop phone, PC, tablet or smartphone

Wi-Fi Calling

From the Webex app, make and receive IV calls using Wi-Fi or mobile networks

VoIP Calling

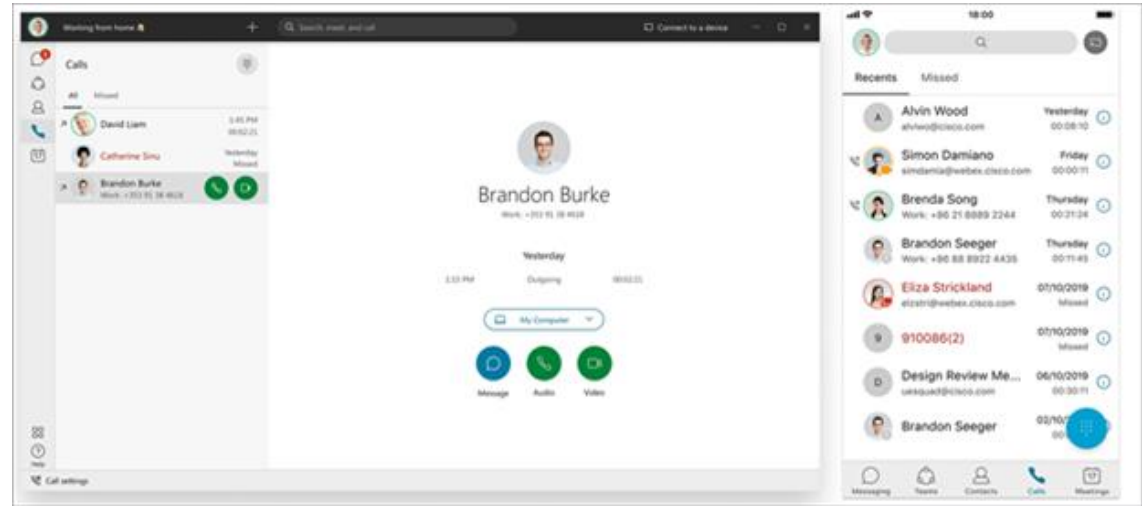

Make and receive IV calls when roaming to stay connected and avoid business calling roaming charges (roaming data charges may apply)

Seamless Handover

Automatically keep your calls as you move between data networks, such as Wi-Fi to mobile data

Multiple Calls

Handle two Webex calls simultaneously and even merge them in to a three-way conversation

HD Video

Use high-definition video and wideband audio codecs and turn the audio call to a video call

Call Pull

Seamlessly move active calls between desktop to mobile or the reverse with a single click, without interrupting your call

IV Webex

Messaging – Easily connect 1:1 or with a group

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Direct and Group Chats

Enjoy extra flexibility with your chat messages: edit, delete, forward, flag for follow-up, quote, animated reactions and threading

Messaging Capabilities

Messaging and file sharing integrated with your content and Team workflow

History

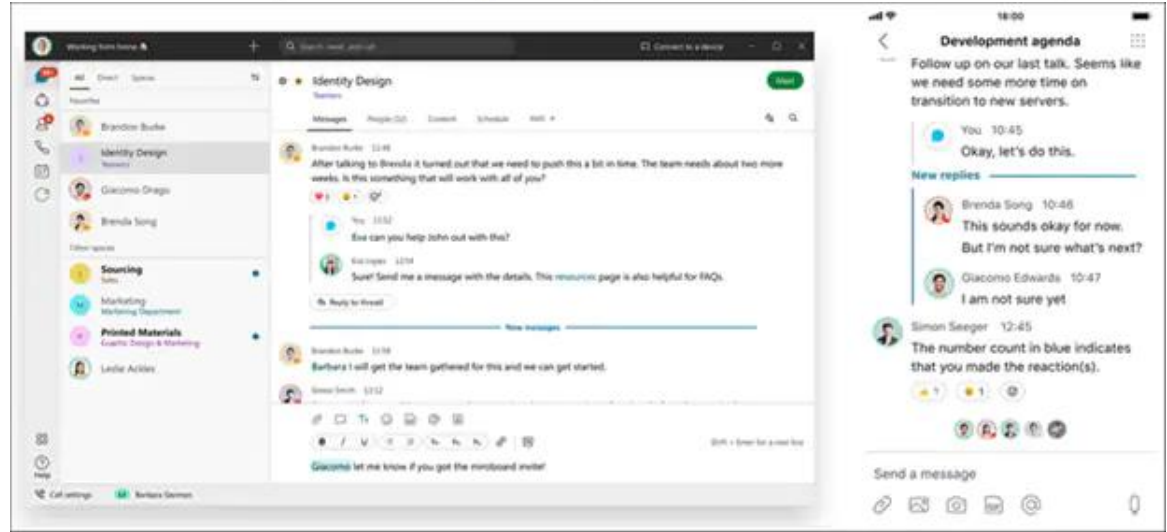

Everything is saved within your spaces, so you never lose track of your chats and content; all are safely archived

Notifications

Minimise distractions without missing critical updates by customising your notifications so you only get alerts about messages that matter to you

Presence Status

Smart presence lets you know when your colleagues are available, removing the guesswork from communicating

Offline Mode

View your messages and listen to your voicemail when you don't have a data network connection so you can always stay productive

External Collaboration

Collaborate with people outside your company by adding external parties directly to spaces

IV Webex

Meetings

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Space Meetings

Schedule a meeting or start an ad-hoc meeting with everyone in your Space with a single click

Personal Meeting Room

You can enjoy your own private and secure online meeting room with a dedicated phone number where teams can participate in HD, audio, video, messaging and screen sharing collaboration (Standard and Premium packages only)

Screen Sharing

Share your entire screen or just a specific app/document. Sharing can be done from the desktop and everyone in the meeting can view and zoom in or out

In-Meeting Chat

During meetings, participants can chat with one another to increase meeting effectiveness

Guest Collaboration

Invite external people to join you in a multimedia collaboration session

Recordings

Record your meetings for later review (package dependent)

Intelligent Webex Support

Further expand Webex functionality when connected with a Cisco Webex board or Room device

Presenter Controls

Control various aspects of the meeting to manage administrative tasks

IV Webex

Intelligent Collaboration

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Spaces

Create dedicated spaces to bring together your teams, your customers and your workflows.

Moderator Control

Control who is joining specific spaces and moderate other user's messages or files

File Sharing

Drag and drop files with colleagues or in a space for your whole team and the files you receive are organised, searchable and saved. Integration options with apps such as SharePoint to work directly on documents within your space

Whiteboarding

Sometimes a quick sketch explains an idea better than words. In Webex you can create a whiteboard to draw and share your ideas.

Intuitive Search

Easily search across spaces, people, message and files to see what you need

Reduced disruptions

Webex reduces noise disruptions with noise removal and speech enhancement

IV Webex

Spaces and Teams

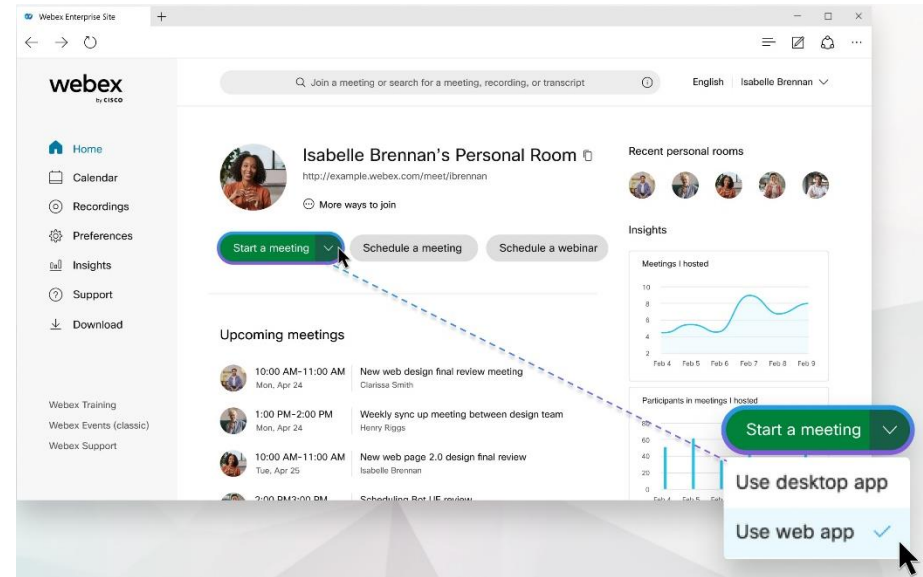

In Webex, all your work takes place within Spaces and Teams. Here you can send messages, make calls, have video meetings and share files and whiteboards. Depending on the Webex product subscribed to, you may have the ability to host Space Meetings and Personal Meetings.

Spaces

When you start a conversation with someone it creates a Space between you and the people you invite to the conversation. You can invite anyone so join in you're a conversation. All you need is their email address.

Spaces work best for groups of people collaborating on a specific topic or project; you can send messages, make calls, have video meetings, share files and user whiteboard. The next time you message the group, your conversation picks right up where you've left it.

If your space expands or changes, you can create a Team and then move your Spaces in to the Team. Teams are great for a consistent group of people or Spaces who are working on something for a long time, which could have many activities or sub-projects

IV Webex

Meetings

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

With Webex, you can meet whenever you need to - right away or later.

There are two ways to start or schedule your meetings in the app, either from the calendar or from your Spaces. No matter which you choose, you can connect with video or just audio, record your meetings share your screen and more.

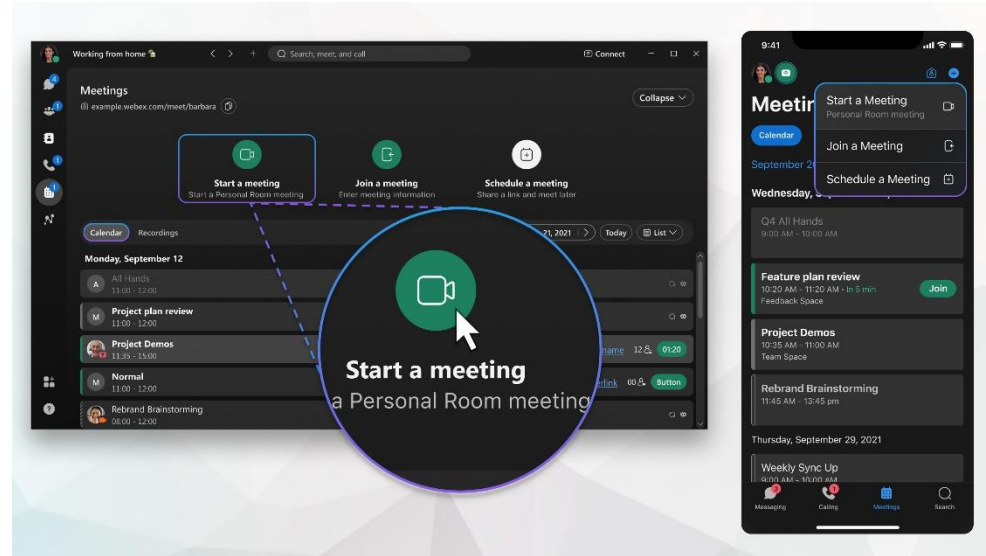

Space Meetings

If you're already working together in a Space, anyone can start an instant meeting to meet right away or schedule one for later. With these types of meetings, everyone in the space gets invited automatically and gets treated like a host.

Personal Meeting Rooms (Standard and Premium packages only)

In addition to Spaces, Standard and Premium Webex users are able to use Personal Meeting rooms and should be used if you need to invite external participants to your meeting.

From your Meetings calendar, you can start a meeting right away in your Personal Room. This option gives you a virtual conference room assigned just to you. Because it's your own room, your link's always the same.

IV Webex

Personal Meeting Rooms

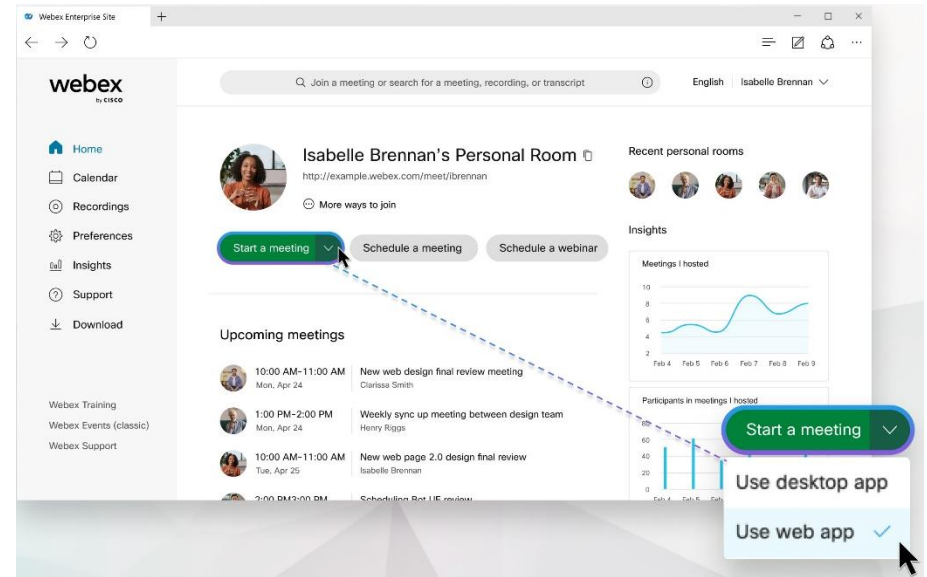

Personal Meeting Rooms

In addition to Spaces, Standard and Premium Webex users are able to use Personal Meeting rooms and should be used if you need to invite external participants to your meeting.

The Personal Meeting Room is your own virtual conference space that you can use for meetings at anytime. The Personal Meeting Room is always in the same place so the URL, video address and call-in numbers never change.

You can customise your Personal Meeting Room in a number of ways including locking it to keep uninvited people from joining meetings, set specific passwords and personalise your own Personal Meeting Room link.

Meetings App

In addition to the Webex app, to use your Personal Meeting Room on your mobile device you will need to download the Webex Meetings app. You can download this from your app store at any time or Webex will prompt you to download this when required

IV Webex

Getting Started – [Purchasing Options & Features](#)

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

You can use Webex on up to three devices – e.g. PC, mobile and tablet – all whilst still using your existing Intelligent Voice desk phone. An incoming call will ring on all configured devices, you just chose which one you want to answer with.

Product	Calling	Messaging	Space Meeting Users	Personal Meeting Room Users
Intelligent Voice Webex - Basic	Yes	Yes	25	0
Intelligent Voice Webex – Standard	Yes	Yes	25	25
Intelligent Voice Webex – Premium	Yes	Yes	200	1000

Some of the features in this guide will be dependent on the product you subscribe to. There may also be limitations imposed by your IT network which may affect functionality.

IV Webex

Getting Started – Important Information

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Emergency Calls

Intelligent Voice provides access to the public Emergency Services in the Isle of Man for phones with Manx geographic and Manx non-geographic numbers.

However, if you use your Webex account for calls outside the Isle of Man it is not intended to replace any locally connected telephony system and is unable to make a call to the Emergency Services in the country of the device's location

IV Webex

Getting Started – Minimum System Requirements

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Minimum System Requirements	
Windows PC	Windows 10 and later; make sure your drivers are up to date.
Mac	MacOS 10.13 and later on a supported Mac Intel or Apple M1 CPU (2GB of RAM minimum recommended)
iPhone & iPad	iOS 12.0 and later, and iPadOS 13.1 and later
Android Smartphones & Tablets	Nougat 7.0 and later (2 GB of RAM required)
Web	The last two major releases of one of these browsers: Google Chrome, Mozilla Firefox, Apple Safari, and Microsoft Edge on computers running Windows, Mac, or Linux You can only use the calling and meetings features from the Webex for Web app using Firefox, Chrome, and Safari

Notes:

- Information correct as of November 2022 – Check <http://webex.com> for latest info
- Webex is not supported with pre-release or early release programs, such as the Apple Beta Software, Windows Insider Program, Google Android Beta, or any other similar programs.
- The performance of the Webex app may also be influenced by other factors. For example, network connectivity or other applications on devices may affect performance.

IV Webex

App Downloads

IV Webex

Getting Started

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

When configured on the platform, you will be sent an automated email.

If your email address has not been registered with Webex before you will receive an activation link with which you can set their password to log in to Webex.

If you have used Webex with your email address before, the email will be a little different and ask you to delete or change your existing account so you can use your registered email address with IV Webex.

Once the email address has been freed up, you will receive the activation email.

Collaboration just got easier

Welcome to Webex!

██████████ using Webex to collaborate in one place, from anywhere - with a seamless experience. Click on the link below to activate your account.

Activate

Sign up with: ██████████@manxtelecom.com

Use confirmation code: ██████████

Code expires in 15 days.

We've got everything you need to make using Webex fast and easy. Check it out here

Top Menu – [Edit Profile](#)

Edit Profile

- Here you can change your avatar, Display Name and choose a cover image

IV Webex

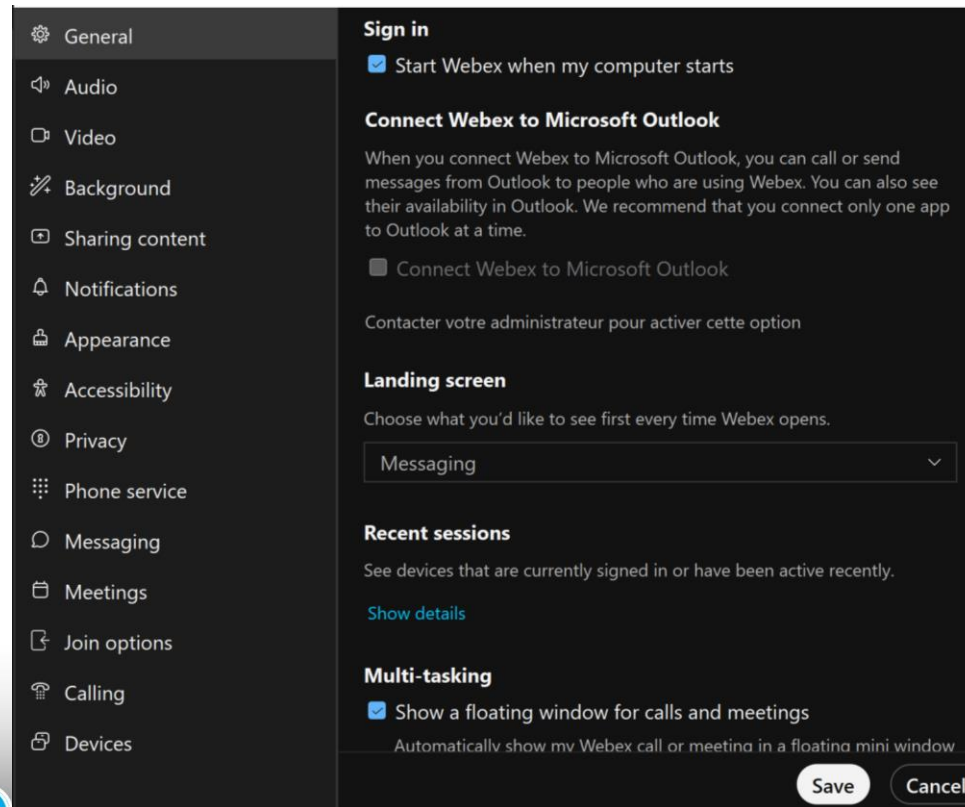

Top Menu – [Edit Profile](#)

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Settings

- The Settings menu is where to find an extensive list of options for every aspect of your Webex app from Audio and video configuration to personalisation and more.

The screenshot shows the Webex Settings application. On the left is a navigation menu with the following items: General, Audio, Video, Background, Sharing content, Notifications, Appearance, Accessibility, Privacy, Phone service, Messaging, Meetings, Join options, Calling, and Devices. The main content area is divided into sections: 'Sign in' with a checked option 'Start Webex when my computer starts'; 'Connect Webex to Microsoft Outlook' with a description and an unchecked option; 'Landing screen' with a dropdown menu set to 'Messaging'; 'Recent sessions' with a 'Show details' link; and 'Multi-tasking' with a checked option 'Show a floating window for calls and meetings' and a sub-description. At the bottom right are 'Save' and 'Cancel' buttons.

IV Webex

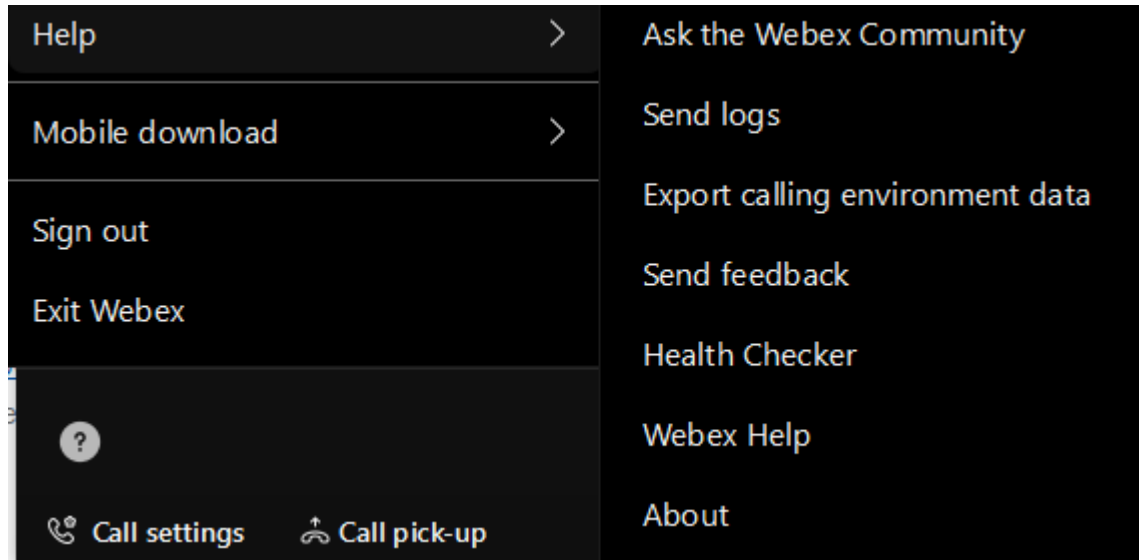

Top Menu – [Webex Help](#)

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Webex Help

- There are multiple options and features in Webex Help
- We would recommend if you have any queries on features issues to visit the Webex Help Centre, link below

Webex Help Centre: <https://help.webex.com>

IV Webex

Top Menu – [More Options](#)

Mobile Download

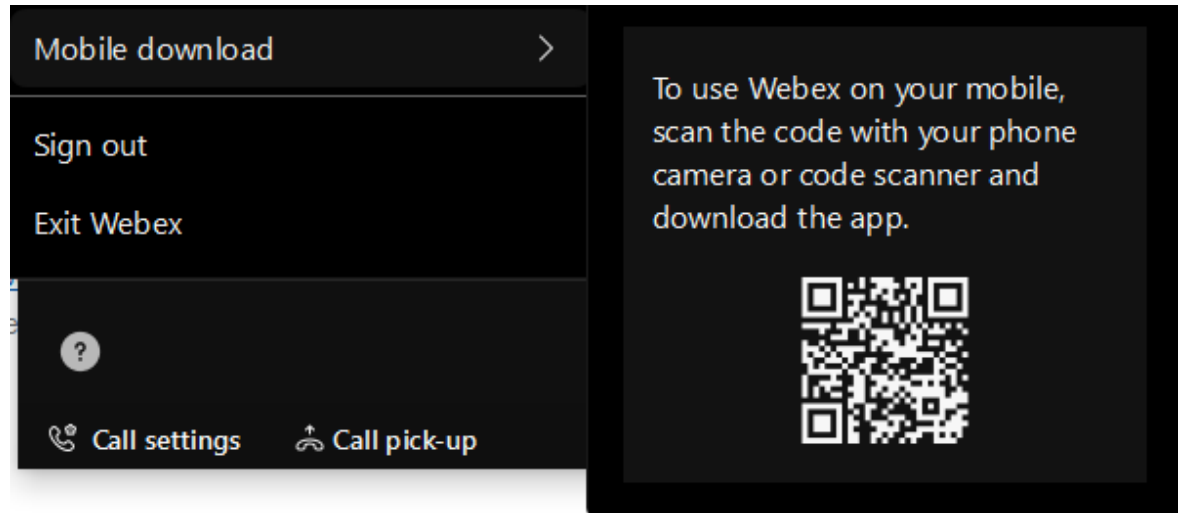

- Here you can use the on-screen QR code to download the Webex App to your device

Sign Out

- Log off from your Webex Account

Exit Webex

- Close the Webex App

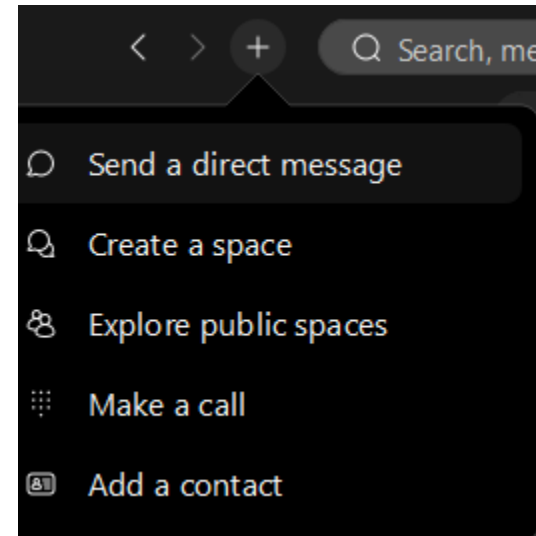

IV Webex

Top Menu – Navigation Controls

Navigation Controls

Like an Internet Browser, these allow you to move backward and forwards between the screens you have viewed. You can also use the + button to quickly initiate new actions instead of going through the left-hand menu options:

- Send a direct message to one of your contacts
- Create a new Space with a group of contacts
- Explore any public spaces which may be available
- Make a call from one of your connected devices
- Add a new contact

IV Webex

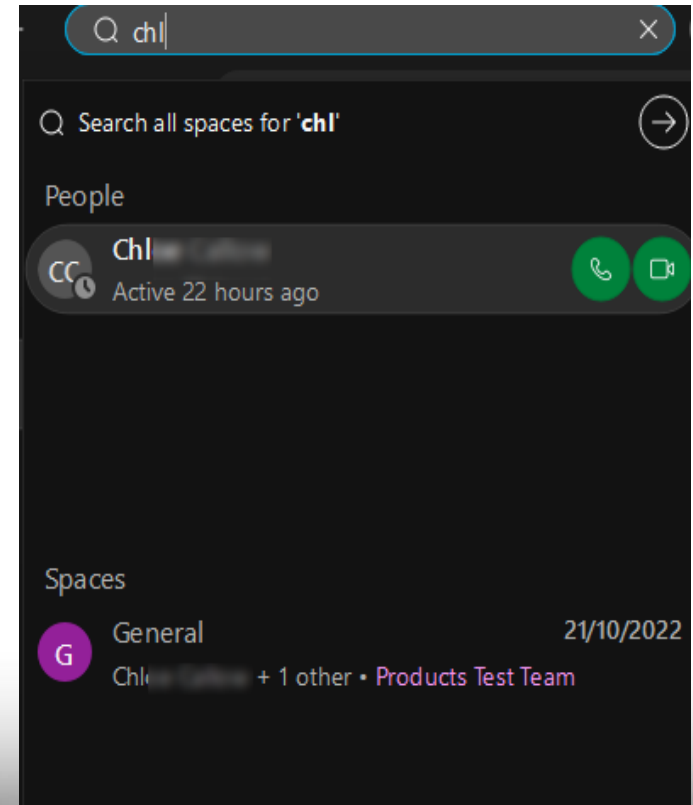

Top Menu – Dynamic Search

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Dynamic Search

- The search bar will dynamically find people, Teams and Chats as you type

IV Webex

Top Menu – [Connect to a Device](#)

Connect External Devices

- You can use Webex to connect to one of your devices and share content locally, make calls, start meetings, join meetings or answer calls

Main Features

- On the left-hand side you will see a number of icons from top-down:
 - Messaging
 - Teams (aka Spaces)
 - Contacts
 - Calling
 - Calendar
 - Meetings
 - Personal Insights

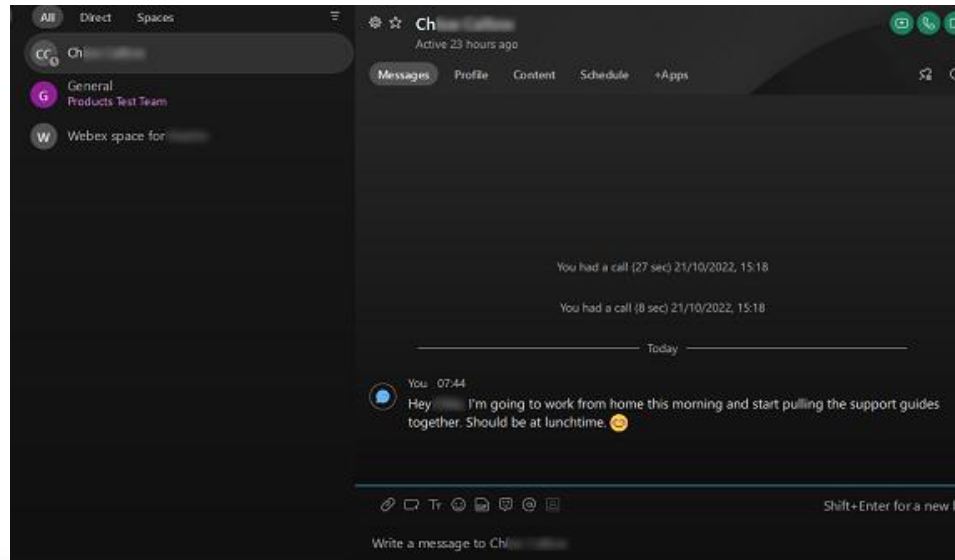

IV Webex

Main Features – Messaging

Messaging

- On the Messaging screen your list of conversations are on the left hand side. When you select a conversation, the chat history will be shown in the main window
- With the top menu you can filter the conversation list from All to Direct chats only or Team chats only

IV Webex

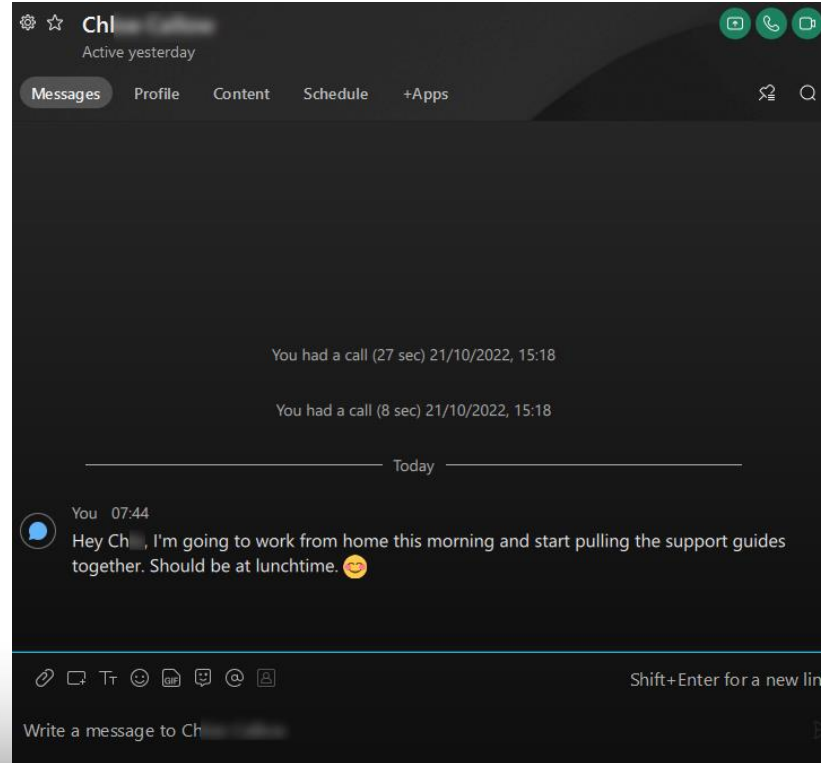

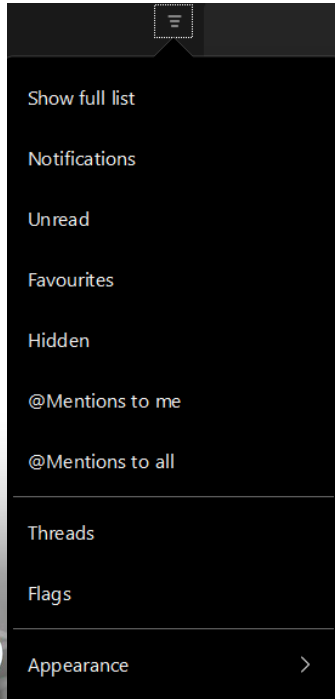

Main Features – Messaging

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Messaging

- Further messaging controls and filters are available with the  icon

- The main Messaging window with a direct contact allows you to see the message history, contacts Profile information, document history and schedule a meeting

IV Webex

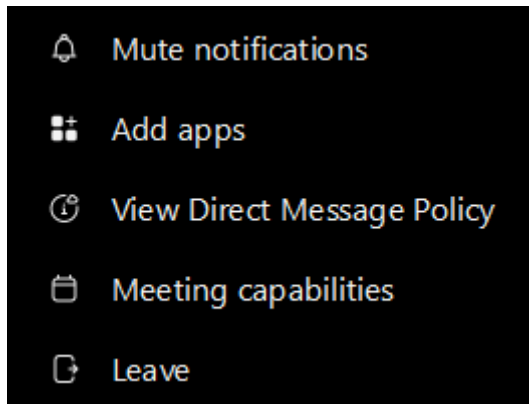

Main Features – Messaging

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Messaging settings

- Message settings are available via the icon 

- The main Messaging window with a direct contact allows you to see the message history, contacts Profile information, document history and schedule a meeting

IV Webex

Main Features – Messaging

cloud connectivity voice mobile data centre cloud

Messaging Teams

- Messaging Team spaces work in the same way as individual chats where you can message, share content and host meetings with members of that Team.
- Click **Meet** to start an immediate meeting which will invite all members of that Team

m-business

The screenshot displays a Webex Teams chat window for a group named 'Products Test Team'. At the top, there are navigation tabs for 'Messages', 'People (2)', 'Content', 'Schedule', and '+Apps'. A 'Meet' button is visible in the top right corner. The chat history shows a message from 'Chl Test' dated 21/10/2022, 15:16, containing the text 'a fun GIF.' and a link: 'This conversation is protected by strong encryption using a unique key. Click to learn more.' Below this, there are buttons for 'Share a file', 'Send a GIF', and 'Add people'. A message from 'You' dated 21/10/2022, 15:16 is partially visible. A separator line indicates 'Yesterday'. A message from 'You' dated 'Yesterday, 12:27' contains a document preview with the following content:

Intelligent Trade – Webex
This guide is based on the Webex Coverage version of Release as screenshots and instructions that may be subject to change.
For more in-depth instructions, tutorials and knowledge on any Webex please visit <https://www.webex.com>

The preview shows two screenshots of the Webex interface: one for 'Webex - Sign in' and another for 'Sign in'.

At the bottom of the chat window, there is a 'Seen by' indicator and a text input field with the placeholder 'Write a message to General'. The bottom right corner of the chat window displays 'Shift+Enter for a new line'.

IV Webex

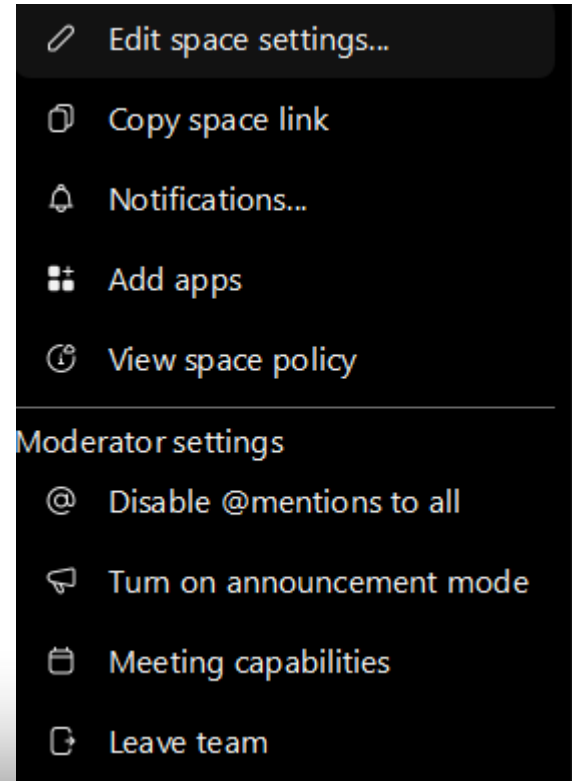

Main Features – Messaging

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Messaging Teams - Settings

- Message settings are available via the  icon

IV Webex

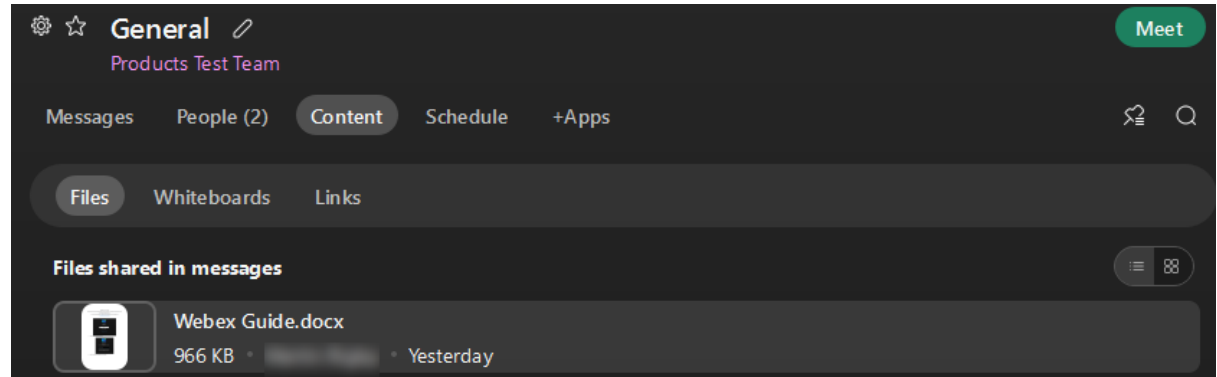

Main Features – Messaging

Messaging Teams – Content

- The **Content** Menu shows the Files, Whiteboard and Links shared within this Team

IV Webex

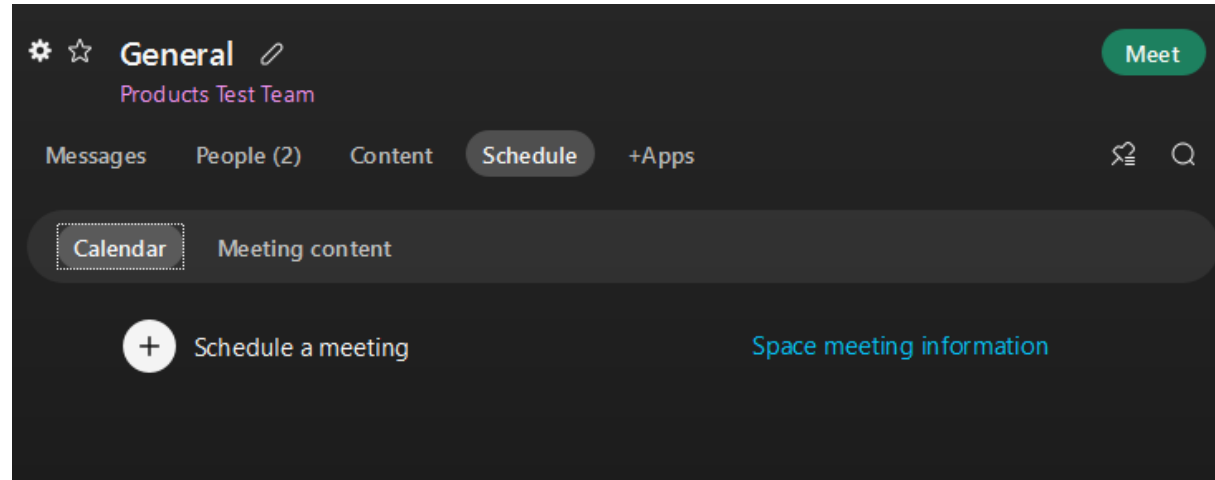

Main Features – Messaging

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Messaging Teams – Schedule

- The **Schedule** Menu is where you can manage meetings and meeting content
- If you want to meet with all members of the team right now click **Meet**
- To book a meeting for another time click **Schedule a meeting**

- Note: If you do not see the **Schedule a meeting** link you may need to upgrade to Webex Standard or Premium. Please contact your Account Manager.

IV Webex

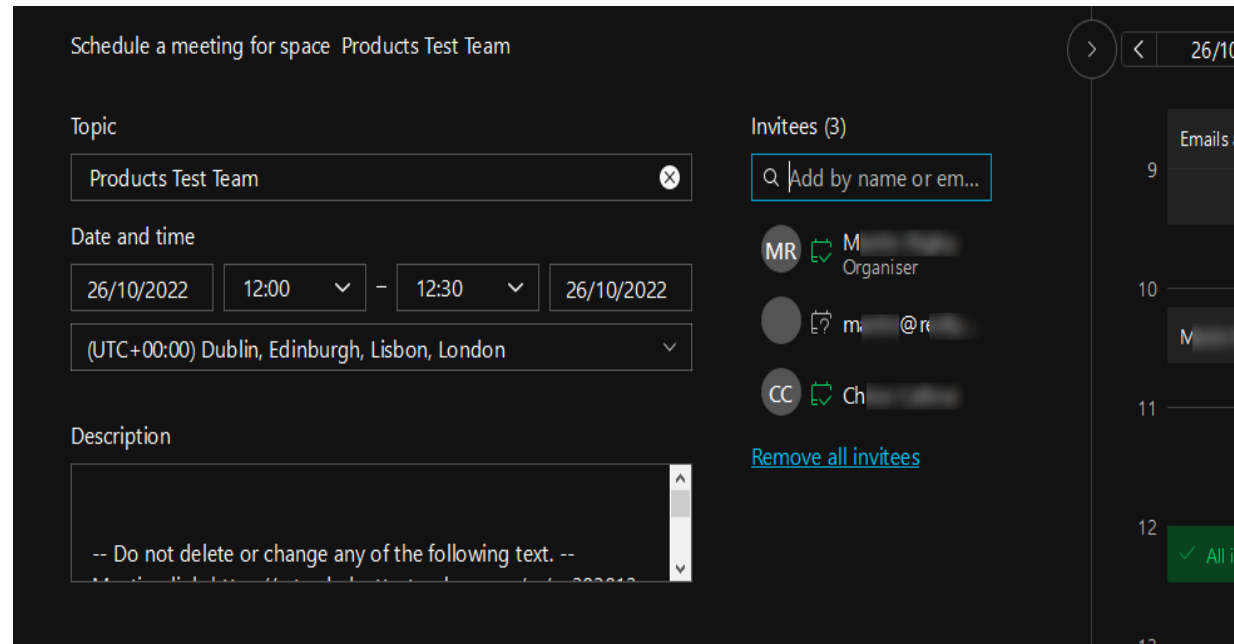

Main Features – Messaging

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Messaging Teams – Schedule

- Instead of live meetings with the **Meet** option which is only for members of that Team, when you **Schedule a meeting** you can invite both internal and external attendees, you can also link your Outlook calendar to Webex to see availability (providing your business permits this).

IV Webex

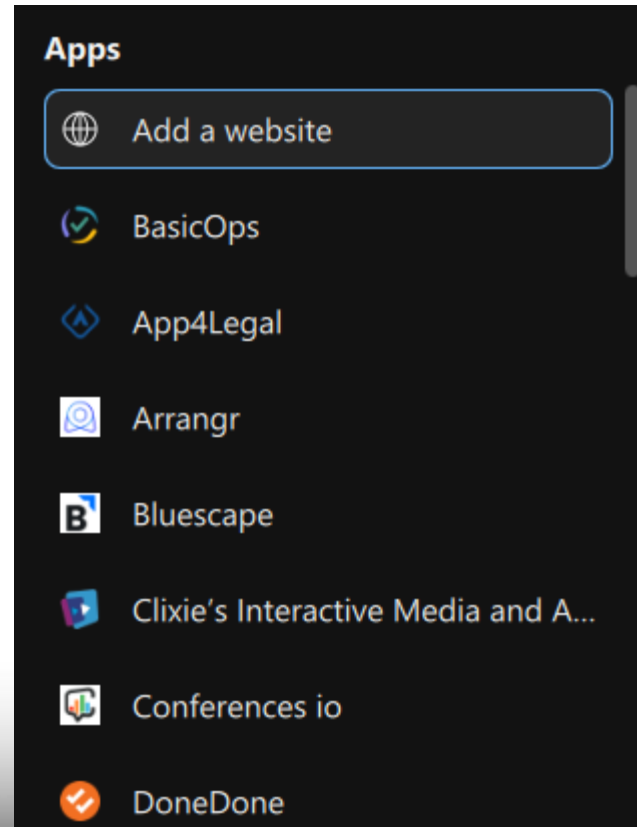

Main Features – Messaging

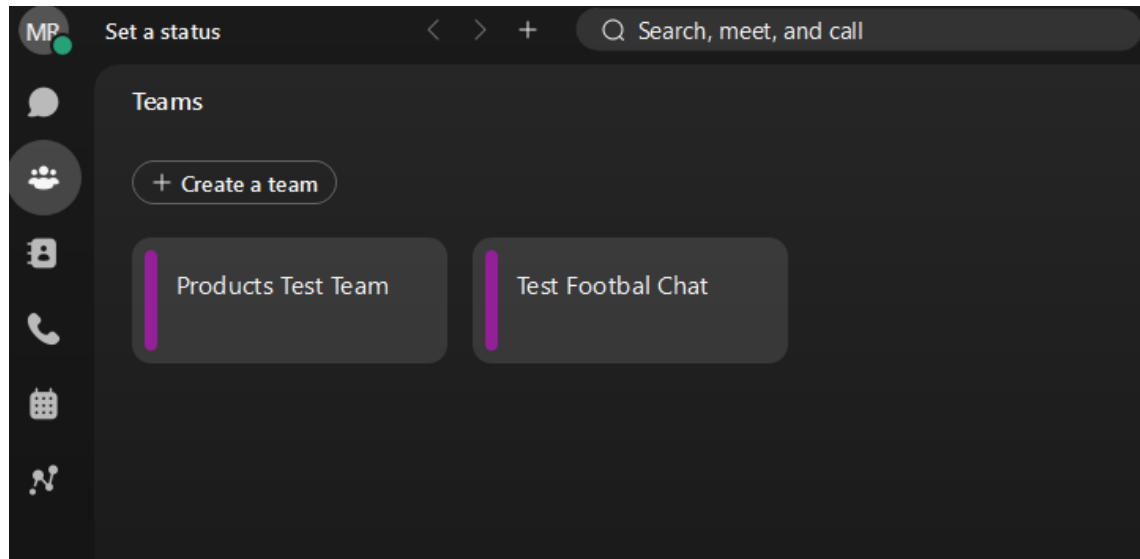

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Messaging Teams – Apps

- You can integrate multiple applications in to enhance your Webex Spaces and provide additional functionality and collaboration tools
- See <https://apphub.webex.com/> for the full list
- You should check for any corporate IT policies or restrictions that may apply on installing 3rd party applications on your devices.

Teams – aka Spaces

- The Teams menu is used to create new Webex Teams from members within your organization and external contacts so you can quickly manage meetings, chats and content. A Team could consist of department or project team members so even Social chat groups such as a Fantasy Football league to reduce email traffic

IV Webex

Main Features – Teams

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Teams – Create a Team

- On the Teams page, click **Create a Team** and then give it a name and add members.

Create a team

Organise spaces for a group of people with a similar goal. A team could be your department or the people you work with on a project.

Name the team (required) Describe the team

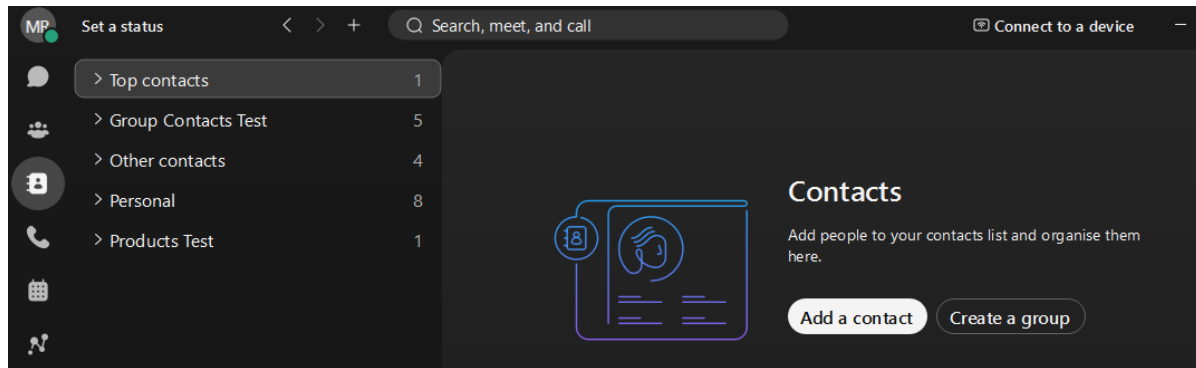

🔍 Add people by name or email

Create Close

Contacts

- The Contacts screen allows you to add contacts to your Webex and import them from Outlook
- You can arrange Contacts in to Groups
- Note, for external contacts to take advantage of Webex Meetings and Chats they will need to create a Webex account

IV Webex

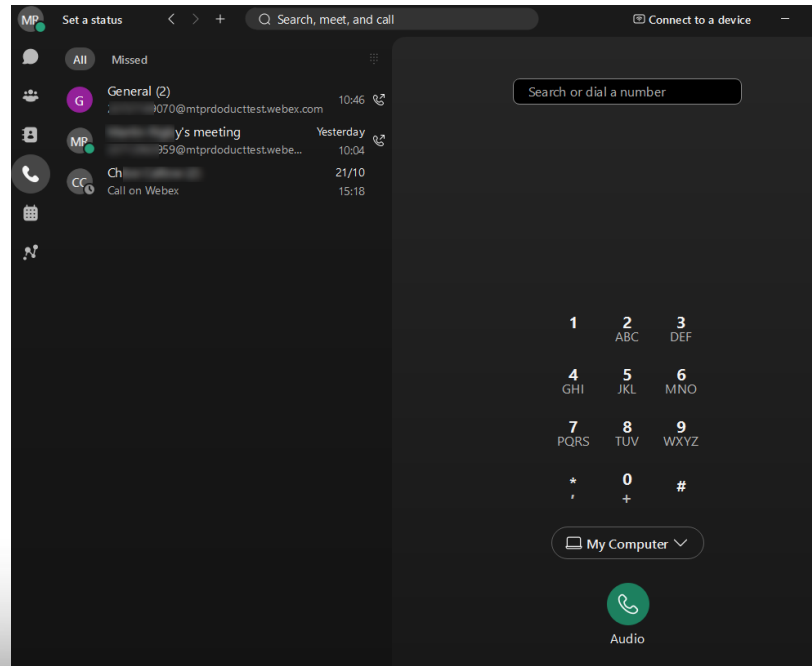

Main Features – Contacts

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Calling

- Your call history is on the left-hand side
- Click on an event to see your call history with that contact

- You can call anyone using the Keypad as if you were dialing from your desk phone
- Calling Webex Contacts within your Intelligent Voice organisation will not incur call charges (roaming data charges may apply if a recipient is off-Island)
- When using a mobile device you will see the keypad icon in your Calling menu

IV Webex

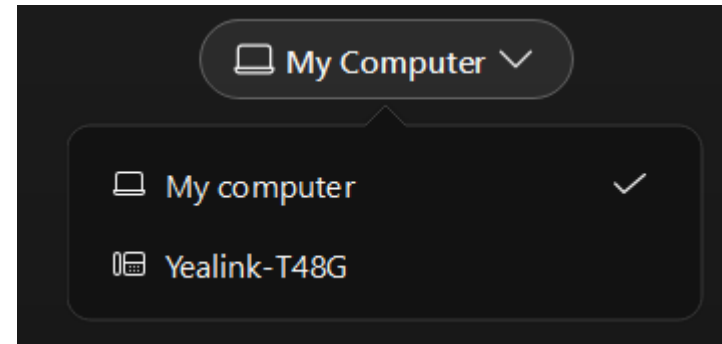

Main Features – Contacts

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Calling

- You can choose which device you want to initiate the call from
- Choose to initiate an audio or video call for each contact
- With audio calls you can call on Webex which allows further collaboration options such as screensharing, video and whiteboarding

IV Webex

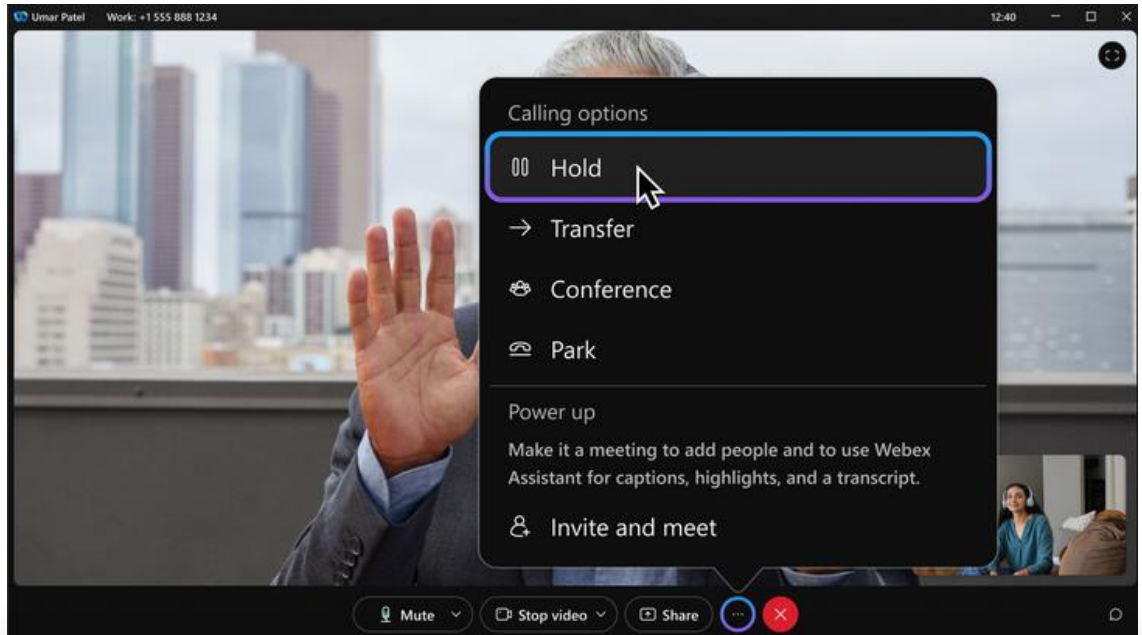

Main Features – Contacts

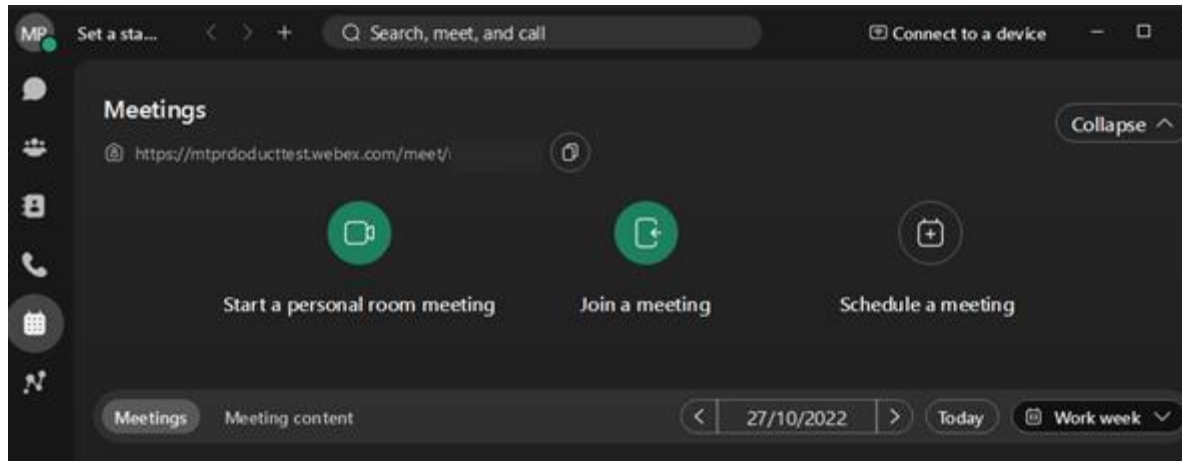

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Calling

- When on a call the options available to you will be displayed along the bottom of the screen

Meetings

- For trusted contacts you can share your Personal Meeting room link, which is your permanent link to join meeting with you – best for internal meetings, or you can schedule a meeting and password protect this for added security.
- Even if you share Personal Meeting Room link, you can still approve/reject attendees before they are in your meeting

IV Webex

Main Features – Meetings

cloud connectivity voice mobile data centre cloud connectivity voice mobile data centre cloud connectivity

Schedule a Meeting

- The Schedule a Meeting page is where you configure your meeting title, time and date, set whether this is to be password protected or not and invite attendees.
- You can add attendees from your existing Webex contacts or via their email address
- Attendees will be emailed meeting invites to respond to with the meeting link and password
